Problem Statement	Ideas	Teammate 1	Teammate 2	Teammate 3	Teammate 4
Lack of platform where one can write editorials and express their knowledge	1. Create a website where one can write editorials something like stack Overflow.	4	4	5	4
	2. Will Form a telegram channel where users can expres their knowledge.	3	4	4	5
	3. I will build a app where the candidate will be able to write his knowldege about data structures and algorithms	4	3	4	3
	4. Will form a Youtube channel and give opportunity to explain editorials and his/her knowledge.	4	4	3	2
	5. Instragram pages	3	3	2	3
Lack of platform where one can find the Editorials of recently concluded coding Competitions	1. I will build a platform like codeforces, codechef where the will get editorails of contest held previously on these platform.	5	5	4	2
	2. I will create a discord server where one can post his/her solutions	3	4	5	4
	3. Taking submission on Forms.	2	3	4	3
	4. Platform where there can be one to one live sessions	3	3	5	1
Lack of platform where one can save their coding data for future references	1. Will have an portfolio page of users that can be used to save their data and algorithms	4	4	5	4
	2. I will create an desktop application which will be having an version control system.	3	4	3	5
	3. Cloud Application to save data which can be accessed everywhere.	4	4	4	3
